

# Credit Karma's State of Debt and Credit Report

March–May 2022

## Editorial Note:

Credit Karma receives compensation from third-party advertisers, but that doesn't affect [our editors' opinions](#). Our third-party advertisers don't review, approve or endorse our editorial content. It's accurate to the best of our knowledge when posted.

## Advertiser Disclosure:

We think it's important for you to understand how we make money. It's pretty simple, actually. The offers for financial products you see on our platform come from companies who pay us. The money we make helps us give you access to free credit scores and reports and helps us create our other great tools and educational materials.

Compensation may factor into how and where products appear on our platform (and in what order). But since we generally make money when you find an offer you like and get, we try to show you offers we think are a good match for you. That's why we provide features like your Approval Odds and savings estimates.

Of course, the offers on our platform don't represent all financial products out there, but our goal is to show you as many great options as we can.

**At Credit Karma, our mission is to  
champion financial progress for all.**

This report helps us do that with debt and credit stats from nearly 77.6 million members across the US. And while everyone's financial story is unique, this big-picture view helps give a clearer picture of where Americans stand.

## What's Inside

Overall debt	<u>6</u>
Credit card debt	<u>13</u>
Auto loan debt	<u>19</u>
Mortgage debt	<u>25</u>

# Methodology

The who, what, where and when

## Methodology

This report drew on approximately 77.6 million Credit Karma users who had been active on the site within the last 36 months. All aggregate data analyzed was pulled on May 30 – June 9, 2022, and came from members' TransUnion credit reports. Averages were based on information from the previous 90 days.

For any sections relating to city-based metrics, the study only considered the 100 largest [U.S. cities by population according to the 2021 U.S. Census estimates](#).
